

We recently had the opportunity to purchase land in Ensenada for the establishment of the new Victory to Victory Church. We got an incredible 40% discount on the land, but we will still need to provide services such as a cistern and septic system, and to construct a church building. We are asking our Victory Family to partner with us in raising \$70,000 to establish this new church in Mexico.

There is already a group of about 30 people meeting regularly in a tent on the site and Pastors Oto & Ely Marroquin are ready to plant this church under the oversight of Pastors Terry & Bernardita Melnychuck.

**Purpose:**

- o To reach the people of Choyal subdivision with the gospel of Jesus Christ.

- o To establish a functioning church to meet the spiritual, emotional and physical needs of the people in that district.

- o To identify ministry giftings that can be trained and released to plant other churches.
